Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

303(d) Attachment 1: 2010 303(d) Listing Tables

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.

303(d) Attachment 1: 2010 303(d) Listing Tables

Table A1: All AUID retired for the 2010 cycle as a result of resegmentation. An asterisk (*) indicates information that requires additional review but which is not required to be resolved prior to U.E. EPA approval of Indiana's 303(d) list. In most cases, the missing information is associated with AUIDs created during IDEM's interim indexing efforts. AUIDs from interim indexing efforts are not entered into IDEM's Assessment Database because they were subsequently changed when IDEM finalized its segmentation tracking table. These interim AUIDs are included here to provide as complete a record as possible to facilitate U.S. EPA's review of IDEM's segmentation tracking.
